

VIVI Quick Start Guide – Stream Video Direct to Vivi

<p>1</p>	 <p>The screenshot shows the VIVI interface with a grid of icons. The 'Play Video' icon, which features a play button symbol, is highlighted with a red rectangular box. Other icons include 'Share Screen', 'Whiteboard', 'Give Student Control', 'Clocks and Timers', 'Screenshot', 'Share Link', 'Assessment', and 'Polls'.</p>	<p>The option “Play Video” will allow you to play a YouTube video (or another public domain video from another source) directly on the Vivi device.</p>
<p>2</p>	 <p>The screenshot shows the 'Play Videos Directly to the Display' screen. A text input field with the placeholder text 'Paste video link here' is highlighted with a red rectangular box. Above the field are buttons for 'Add to Queue', 'Play Queue', and 'Remove All'. To the right, there is a 'PLAYLISTS' section with a 'Test' entry.</p>	<p>On the left you will see an option to Paste Video Link Here. Paste a YouTube video link in this field.</p>
<p>3</p>	 <p>The screenshot shows the same 'Play Videos Directly to the Display' screen as in step 2. The 'Play Video' button, which has a play icon, is now highlighted with a red rectangular box. The text input field below it now contains a YouTube URL: 'https://www.youtube.com/watch?v=9tobl_8U7d...'. The 'Add to Queue' button is also visible.</p>	<p>Use the Play Video button to begin playback on the Vivi device. While the video is playing, you will still be able to use your laptop.</p> <p>You can also queue videos for automatic playback. Do this with the Add to Queue button.</p>
